

Assignment 1

BUSA 523

due: Jan 31st, 11:59 PM

1. Write a program which randomly selects a number between 1 and 20. The user is then given 5 chances to guess the number correctly to win. (30)
2. Make the following changes to the above program. (20)
After each guess, print if the next guess should be lower or higher. *For example, if the computer selection is 10 and the user input is 6, print guess a higher value.*
3. Write a program for “Rock-Paper-Scissors-Lizard-Spock”. (50)

Its Simple
